DiTo

From a system based **on Money**

to a system based **on Value**

In a Nutshell.

DiTo lets people organize in self-sovereign communities. It's a new standard in **Collaborative Economics**, based on a **non-speculative mutual credit system** and a ***universal-login*** based on **Skills & Contribution.**

Pick what you love.

1. Hard to join
and / or **take action now.**

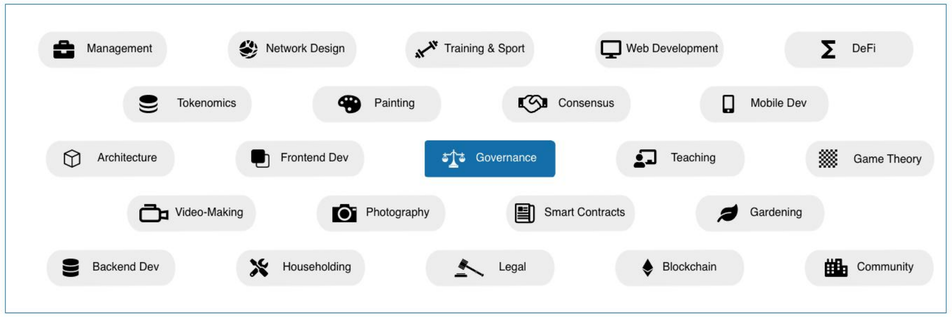
Have you ever thought,
"I would like to contribute, but ..."
it was **too hard**, or **too expensive** to start?

DiTo

what's this about

Have you ever thought,
"I would like to contribute, but ..."

Distributed Town (DiTo) lets you create or join a community with one click. No name, location or bank account necessary.



DiTo

A Local Community - of Global Citizens

Choose to Act.

Pick up your skills.

And **create** or **join** a community with **one click**.

No **name, location** or **bank account** necessary.

Just your **talent** & **skills**.

DiTo

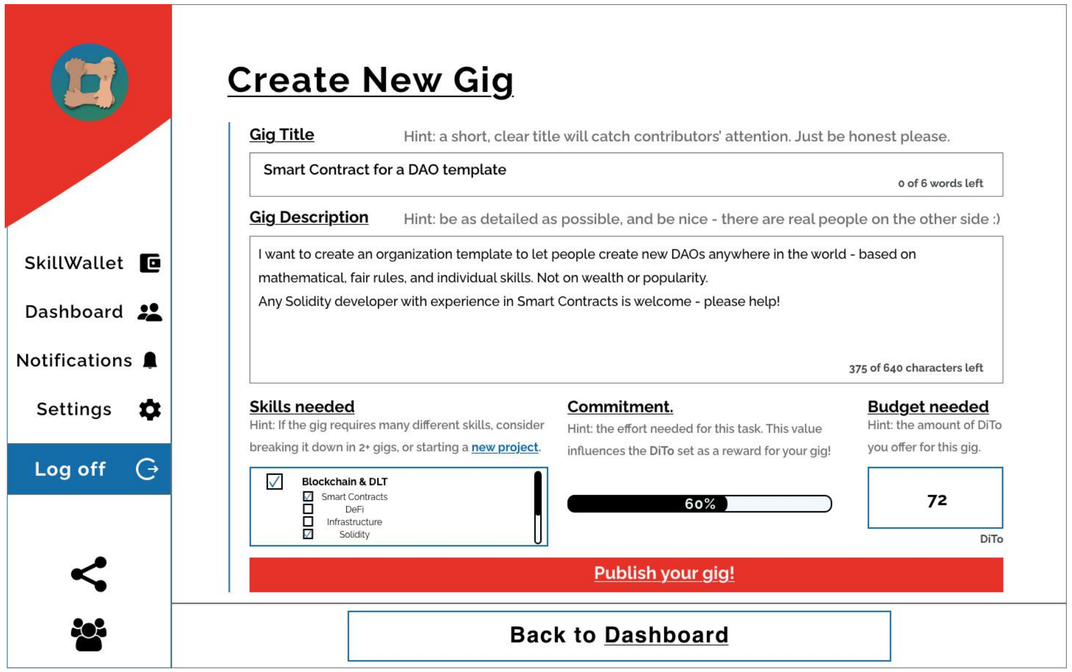
From a system based on **Money** - to a system based on **Value**.

You're not the only one.

2. Complex Projects.
Or just the **simple** things.

Have you ever thought,
"if only I could get some help, the ***right talent*** *at the* ***right time****..."*

for a **new project**, or just a **everyday task** at home?



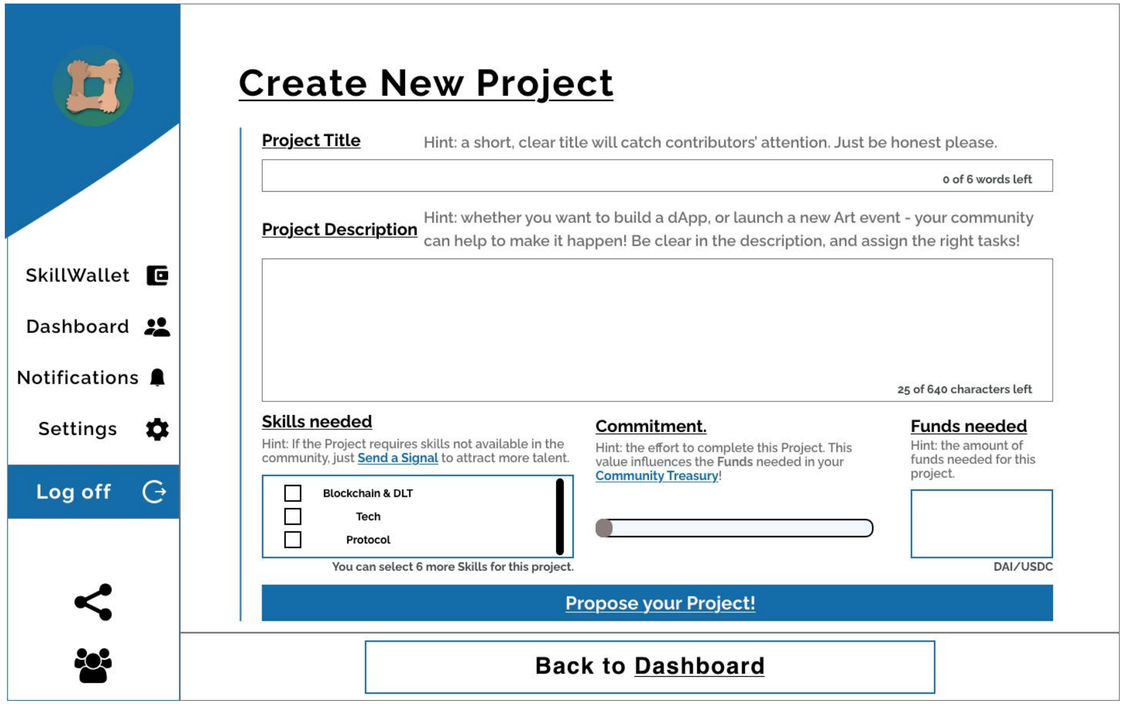
DiTo

From a system based on **Money** - to a system based on **Value**.

Just ask.

Distributed Town is a Network of **independent Communities** of members with **verifiable skills** available for you.

Create your project, and start looking for the **talent**, or **funds**, that you need!

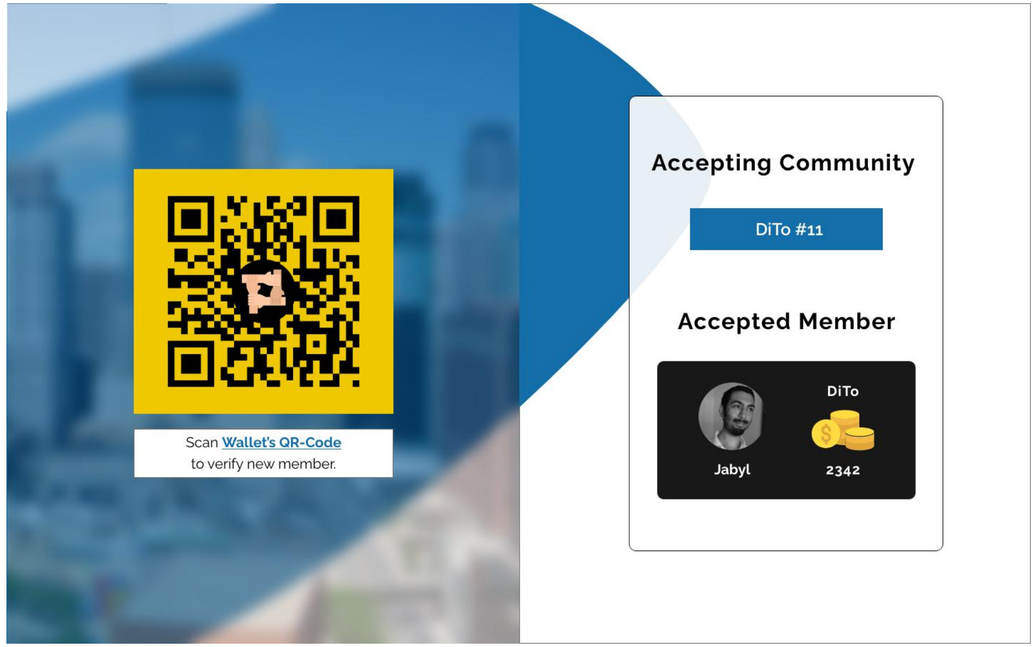


DiTo

From a system based on **Money** - to a system based on **Value**.

Product Breakdown.

a. **Applied**, multi-purpose Protocol.
b. **Community Tokens** & **Mutual Credit.**
c. **Distributed task management & CPS**.
d. **Self-sovereign ID validation** based on skills, not personal data.
e. **Sybil-resistant model** for improved Quadratic (Public Goods) Funding.

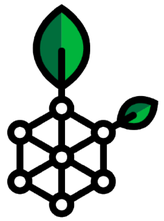


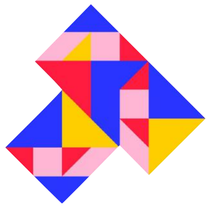
DiTo

From a system based on **Money** - to a system based on **Value**.

Why Blockchain & RSK

OpenGSN





1. **Fair funds distribution** for projects in the area of Public Goods.
2. **Non-speculative** Community tokens.
3. Community **RNS Domains** & **Sovryn Liquidity Pools**
4. Decentralized Hosting & **Pseudonymity**.
5. **Gasless** transactions & **scalability**

DiTo

From a system based on **Money** - to a system based on **Value**.

How competitors do it.

1. **Generalized Purpose**:
does “one fit all” really work in communities **made of people**?

2. **Speculative currency:**
participants incentivized only through **short-term financial rewards.**

COLONY

DAOstack

ARAGON

DiTo

From a system based on **Money** - to a system based on **Value**.

How we do it.

1. **Real Participation:**
Create or Join a community, **at your own terms.**

2. **Mutual credit:**
get what you give - based on math & fair rules.

3. **Multi-purpose Org**:
Communities & Individuals follow **their** vision, not **ours.**

Blockchain & Web3

Ideal for **small, functional Web3 teams** aiming to

1. keep **accounting** & run **proposals**
2. fair, **milestone-based rewards & payments** to members
3. efficiently **distribute tasks**
4. get **initial fundings** for their project
5. coordinate for **hackathons** & **sprints**

Art, Creativity & Lifestyle

For **artists** & **creative minds** who want to:

1. keep **accounting** & run **proposals**
2. manage **multi-disciplinary projects** & distribute **tasks**
3. distribute **shares & royalties** *fairly*
4. maintain **continuous funding flow**
5. update **scores & rank** while gaming

Local Community

For **neighbors**, **condos** & small **local clubs** who need to

1. hold a **common treasury**
2. vote for **local proposals** based on **reputation** & **commitment**
3. **share & track** common resources
4. **organize & fund** local projects
5. divide tasks for **mutual support**

DiTo

From a system based on **Money** - to a system based on **Value**.

Why this? Why now?

Social Interaction

The most damaged during pandemics.

4.57 billions of People

Are part of an Online Community.

Collaborative Economics.

One of the fastest-growing industries worldwide.
